

Statistics on the usage of the ITACA portal

The access to the ITACA database has been monitored during 2015.

In average there are 850 unique accesses per month (Figure 1). Main stakeholders are research institutions and professionals (Figure 2). A large part of research stakeholders consists of students who use the database for Msc thesis or training.

Figure 3 lists the accesses from different countries (November 2015). Although the majority of users are Italian, there is significant international access, demonstrating that Italian data are used worldwide.

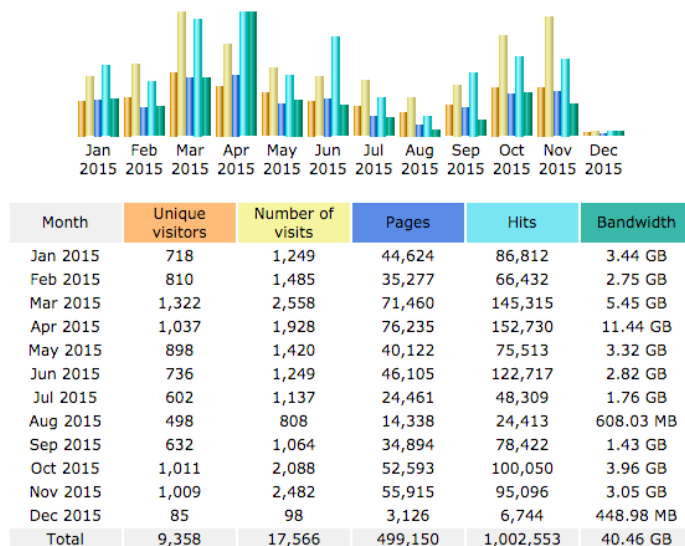

Figure 1. Accesses to the ITACA database during 2015 (last update 2 December 2015)

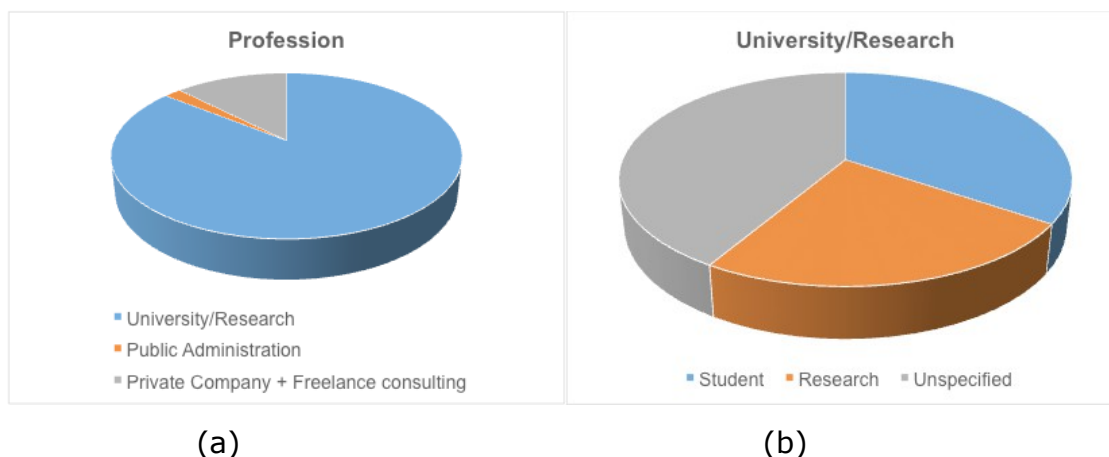

Figure 2. Percentage of stakeholders during 2015: a. ITACA stakeholders; b) detail on research stakeholders.
